#### Accommodation & Transportation :

**Dr. A. R. Hanumanthappa**

#### Registration & Reception :

**Dr. B. R. Sunitha**

**Dr. G. K. Mangala**

**Dr. M. Veena**

Dear Sir / Madam,

Warm greeting and best wishes from the department of Microbiology, JJM Medical College in Davangere, Karnataka.

Good laboratory practice is a system of principles that provides framework within which laboratories work for ensuring quality and maintaining standards. Laboratory accreditation determines technical competence of the laboratory and its personnel. An accredited laboratory assures patients that the tests conducted are both accurate and reliable.

Laboratories are assessed to match with pre-set standards by the competent authorities. This also include re-assessment and surveillance at regular intervals. The government is in the process of making laboratory accreditation mandatory.

For this quarterly meeting of IAMM-KC, we felt the need to create awareness among healthcare providers regarding quality assurance and the processes involved in the accreditation of microbiology laboratories.

With this theme in mind, we invite you to join us at our department on Saturday 5th December, 2015 and make best use of the resource persons.

For enquiries regarding travel and accommodation, kindly contact Dr. A. R. Hanumanthappa at 9448727211
